

Are you still struggling to **stop a puppy from chewing everything in sight?**

First-Time Dog Owner Reveals How to **chew train a rambunctious 6-month old puppy in Just 14 days**

**stop a puppy from chewing everything in sight with a simple
but revolutionary book**

Trying to **stop a puppy from chewing everything in sight** isn't nearly as easy as they make it seem, is it?

Stress has gotten the best of you. You have:

- **invested in a large variety of chew toys.**
- **raised your voice.**
- **tried smacking your puppy while in the act.**

... and they all left you with frustrating results.

But There is Good News!

Hey there, my name is **Amanda Smith** and yes, I know exactly how you're feeling.

These days, I've managed to achieve quite a bit of success... I'm able to **trust my dog not to tear apart my home, even when he's left unattended**, I can also **invest in high quality furniture, without worrying that it will be torn apart**, and I'm very lucky in that I can **fully enjoy the companionship of having a dog by my side.**

But I'll be honest...

Things Definitely Didn't Start Out This Way...

Before I ever achieved even a tiny taste of success, there were a lot of roadblocks. So many times I was ready to throw in the towel.

When I first started out, **I didn't know how to effectively discipline a puppy to curb problem behaviour, I didn't have a lot of time to invest in training, and I was afraid I would have to give up my dog if the chewing did not stop.** None of it worked out for me and I just ended up ready to quit, thinking I would never be able to stop a puppy from chewing everything in sight.

Of course, you know *exactly* what I'm talking about, right?

Does Any of This Sound Familiar?

- You've **invested in a large variety of chew toys** which just resulted in **wasting a lot of money with no success.**
- You've **raised your voice** which led to **feelings of guilt as your puppy becomes scared and confused.**
- You've **tried smacking your puppy while in the act** which just ended up in **signs of aggression from your puppy.**

Just Before I Was Ready to Give Up, A Stroke of Luck Changed Everything.

You can only run into so many walls before you get so frustrated that the only option left seems to be quitting.

I was just about at that point when I **stumbled on an at-home dog training program online that didn't require a huge time or financial investment.**

As soon as I discovered this, everything instantly got easier.
With this amount of success, I knew I couldn't keep it on lockdown.

Since then, I've run into multiple others who encountered the same, never-ending battle I went through. And it seemed pretty unfair to keep it to myself... especially since it's been such a huge stepping stone in my success.

So I'd like to let you in on the "secret."
